

Sage Pastel Partner Payroll

History of Change 2019 Update 3b

Below are the details of the changes made to our latest software release.

Enhancements

- PPP-7024 – When performing a bank transfer for Sage Pay, you will now be directly rerouted to the payment approval portal.
- PPP-7040 – UBank has been added as a valid bank in Sage Pay.
- PPP-7062 – If a user is not registered for Sage Pay, the icons will still appear and give users information about the benefits Sage Pay can offer them.
- PPP-7077 – The GL Integration Assistant has been updated to be compatible with Sage 50c (V19).
- PPP-7082 – PPP-7095 – You are now able to enter take-on value for a new employee's ETI or make adjustments to an existing employee's ETI values on Edit...Employee Masterfile...Statutory-tab...ETI-tab.

Defects

- PPP-7026 – User permissions have been updated to ensure that employee masterfile fields are disabled when a 'Data Processing' user is created.
- PPP-7033 - The registration code will no longer skip to the beginning of the row when manually typing it in.
- PPP-7056 – Calculation totals will no longer be removed from custom transactions linked to standard transaction templates.
- PPP-7058 – There should no longer be empty termination dates in the Employee Equity details, as the termination date is now forced to populate and validate.
- PPP-7060 – Quick Payroll users will no longer receive Error 429 when terminating employees.
- PPP-7072 – Users have the option to programmatically remove ETI Values that had been calculated in the past where the wage is 0.00.
- PPP-7076 – Year End companies will no longer revert back to February when a backup is performed during the year end process.
- PPP-7096 – During a pay period update, more robust checks have been set in place to ensure that the period indicator is correct.
- PPP-7097 – The encryption password for Sage Self Service payslips has been reinforced to ensure users no longer get an encryption error when reprinting payslips.
- PPP-7111 – The upload of Self Service payslips have been amended to make provision for security changes brought into recent Sage Pastel Payroll and Sage Self Service versions to ensure payslips are being uploaded correctly and timeously.

Councils

- PPP-7052 – Electrical – The ECA Member Firms Levies have increased to R13.35 (Incl. VAT)
- PPP-7081 – MIBFA – The MEIBC Admin Levy has been increased from R1.96 to R2.05 for weekly pay frequency and R8.49 to R8.88 for monthly pay frequency.

International

- PPP-7029 – Namibia – Tax Payments for the year will now reflect correct on the statutory reports even if the company id is changed.
- PPP-7034 – Zambia – The Pensionable Earnings will now show correctly on the NAPSA export file.
- PPP-7038 – Botswana – Transaction 5772 (Income) has been replaced with Transaction 9400 (Company Contribution)
- PPP-7049 – Swaziland – New transactions have been created for Approved Pension and Provident funds in order to affect the calculation of PAYE correctly.
- PPP-7078 – Swaziland – Changes to the layout of the NPF200 has been made in accordance with SNPF requirements.
