

Revised Estimate is incorrect in Job Masterfile Maintenance or in Job Cost reports

Products

Sage 100

Country

North America

Description

The revised estimate is incorrect on the Job Status tab in Job Masterfile Maintenance or in Job Cost reports. The Estimate field is not populated on the Job Cost Code Detail Report

Disclaimer

Backup Warning

Use caution when working with the below product functionality. Always create a backup of your data before proceeding with advanced solutions. If necessary, seek the assistance of a qualified Sage business partner, network administrator, or Sage customer support analyst.

Resolution

Revised and Original estimate values are stored in two files:

- The revised estimate amount for the job is stored in the JC1 Job Masterfile file, JC_Job.m4t in v2018.
- The revised estimate amount for a cost code and cost type is stored in the JC2 Cost Code Detail file, JC_JobCostCodeDetail.m4t.

To manually correct the revised estimate amount on the Job Status tab:

Note: Use caution when working with Data File Display and Maintenance. Always make a backup first. If necessary, seek the assistance of a qualified Sage Software business partner or a Sage Software Customer Support analyst.

1. Expand **Modules**, **Library Master**, and **Utilities**. Double-click **Data File Display and Maintenance**.
2. Select the **JC_Job.m4t** (JC1 for Sage 100 2017 and earlier)
3. Select the record for the job with the incorrect revised estimate amount.
4. Click **Edit**. For field **RevisedEstimateAmt**, type the correct amount in the **Change** field.

To correct the revised estimate amount for a specific cost code and cost type:

1. Expand **Modules**, **Job Cost**, and **Main**. Double-click **Job Masterfile Maintenance**.
2. Select the job.
3. On the **Main** tab, click **Cost Code**.
4. Select the cost code and cost type with the incorrect revised estimate amount.
5. Type the correct amount in the **Revised Estimate** field.

Note: The total of the revised estimates for all cost codes should match the revised estimate total for the job.
