How to download and register for the Sage 50 – Canadian Edition educational software.

1. Go to: <https://www.sage.com/en-ca/about-us/education/>
2. Under **Available Sage software**, **Sage 50 Accounting**, select: **Register for student version**.

The screenshot displays the Sage Education Program for students website. At the top, there is a navigation bar with the Sage logo and links for Products, Solutions, Accountants, Partners, Blog, and Support. A search bar and a 'Sign In' link are also present. Below the navigation bar, the page is titled 'Education Partner Program' and features a large banner with the text 'Sage Education Program for students' and a 'Register' button. The main content area is titled 'Available Sage software' and includes a sub-header 'Select the software for your course curriculum'. Three software options are listed: Sage Accounting, Sage 50 Accounting, and Sage 300. The Sage 50 Accounting option is highlighted with a red box, and its 'Register for student version' button is also highlighted with a red box.

3. Complete all required details on the Registration Form and select **Submit**:

IMPORTANT INFORMATION: Do NOT download any product updates for the student or education version. If you download any update, the student version will no longer be compatible, and students will no longer be able to transfer data between the education version and the student version they use at home. In other words: the year/release a student downloads at home, must match the year/release being used to teach (by their educational institution).

Get trained.

Sage University offers a variety of free anytime learning courses to help with your learning on Sage Software:

If you need assistance with your training/textbook, please contact your educational institution/lecturer directly.

Contact us by emailing sageeducation@csma.com should you have any questions, concerns, or comments.

IMPORTANT:

Never update your student version to the product update versions (such as 202X.1 or 202X.2).

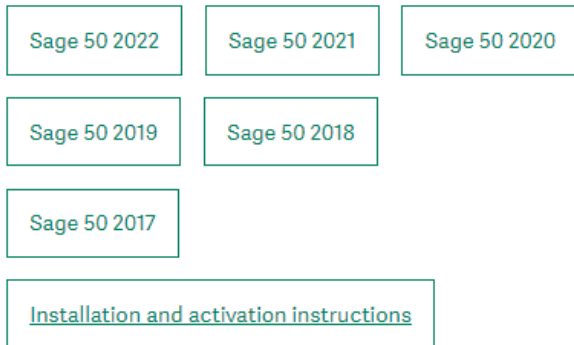

5. Next step is to download your Sage 50 student version.
Staying on the webpage: <https://www.sage.com/en-ca/about-us/education/>
Under **Get the software**, **Sage 50 Accounting**, select the version you would like to download.

Sage 50 Accounting educational version is **valid for 14 months after registration**. Data from other Sage 50 Accounting products cannot be opened with this download.

Make sure you select the version of the software (year) provided by your instructor.

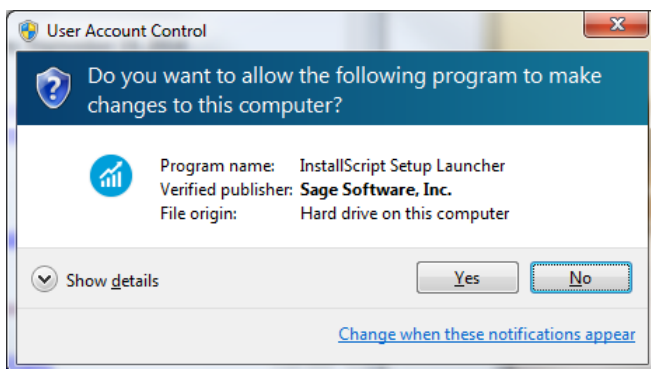

IMPORTANT:

- Please ensure that you select the correct version, and that is matched your software registration version, or you will not be able to register your Sage 50 student version.
- Never upgrade your student version to the product update releases within a year cycle.
- Data from other Sage 50 products cannot be opened with this free download.

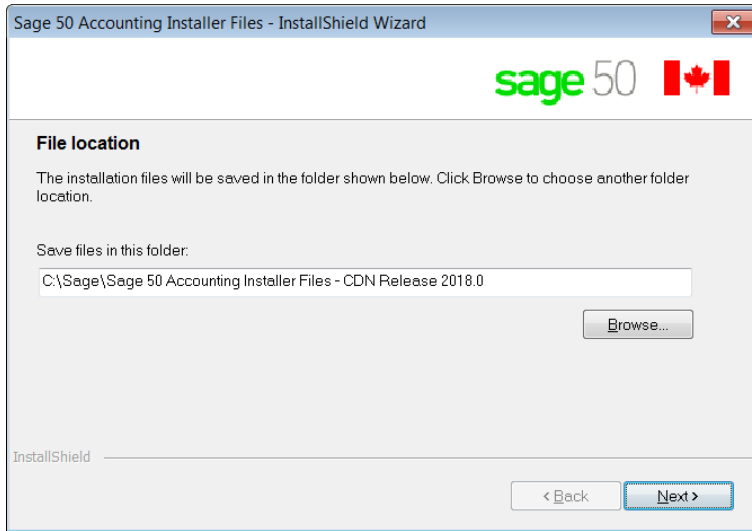

6. For this demonstration, we selected Sage 50 2020. Run the .exe file that is downloaded:

7. Depending on your computer settings, you may receive a message like the following asking if you want to allow the following program to make changes to this computer. Click **Yes** to continue.

8. The Sage 50 installation wizard will save the installation files on your computer. The default location of these files will be the following: C:\Sage\Sage 50 Accounting Installer Files – CDN Release 2020.x

9. Select **Install Sage 50**

10. Follow the prompt until your version is fully installed.

I did not receive my registration codes after completing the online registration form.

Sometimes the email response gets blocked by your firewall/spam ware, or the email gets sent to your junk/spam folder.

If you still did not receive it, please email sageeducation@sage.com. In the email, please mention what Sage 50 version/year you require.

Sage 50 is not accepting the registration codes I received.

This error typically happens when the Sage version/year you have installed doesn't match the Sage version/year key codes you have requested.

Please double check you have installed the correct version and then re-register for the right set of codes.
